

PRODUCT DATA SHEET

**LUBRALL CLEAN-ECO-VII**  
**(Heavy Duty Cleaner for Jet/Spray washing Machine)**

LUBRALL CLEAN-ECO-VII sets a new standard in eco-friendly cleaning solutions, crafted to meet the rigorous demands of modern industries while prioritizing environmental sustainability. This biodegradable cleaner is specially formulated to effectively clean a variety of critical components across diverse sectors.

**Key Features of Lubrall CLEAN-ECO-VII:**

1. **Eco-Friendly Formulation:**
  - Made from environmentally responsible ingredients, CLEAN-ECO-VII minimizes ecological impact without compromising on cleaning power.
2. **Biodegradability:**
  - Designed to naturally break down over time, CLEAN-ECO-VII meets stringent environmental regulations, reducing long-term environmental footprint.
3. **Versatile Applications:**
  - Ideal for cleaning: Auto Components, Bearing, Castings, Cylinders, Chucks.
4. **Effective Performance:**
  - Despite its eco-friendly nature, CLEAN-ECO-VII delivers robust cleaning performance, effectively removing contaminants, oils, and residues from surfaces.

**Applications:**

- **Automotive Components:** Ensures thorough cleaning to maintain performance and longevity of auto parts.
- **Bearings:** Cleans to optimize precision and durability in mechanical systems.
- **Castings and Cylinders:** Removes residues and oils to enhance operational efficiency.
- **Chucks:** Cleans critical components to ensure precision and reliability.

Lubrall CLEAN-ECO-VII embodies a commitment to sustainable practices, offering powerful cleaning capabilities while meeting environmental standards. It is the choice for industries seeking effective, environmentally responsible solutions for maintaining cleanliness and operational integrity.

Appearance:	Colourless Liquid
Odour:	Typical organic
Specific Gravity:	>1.1
Ph Of 5% Solution:	9.2-9.8
Flash Point:	NA
Active Matter:	70%
Refractometer Factor:	Not applicable
Biocide	Present
Sulphar %	NA

**Packing:** - 50 Liter drum.
