

PRODUCT DATA SHEET  
**LUBRALL SEAL-QC-500**

**Lubral SEAL-QC-500** is an oil-based rust preventive that forms a non-drying, oily film on metal surfaces, providing 3 to 5 months of protection. Ideal for rust prevention in various industrial and commercial applications, it ensures reliable rust protection.

**Key Features and Benefits:**

- **Non-Drying:** Forms a lasting, oily film.
- **High Viscosity:** Ensures thorough coverage and adhesion.
- **Oil-Based:** Robust rust and corrosion protection.

**Application Areas:**

- **Manufacturing and Industrial:** Protects machinery parts and components.
- **Automotive:** Safeguards stored or awaiting parts.
- **Aerospace:** Keeps components rust-free during short-term storage.
- **Marine:** Temporary protection for metal parts.

**Usage Instructions:**

1. **Clean Surface:** Remove contaminants like dirt and grease.
2. **Apply Evenly:** Use a brush, spray, or dipping method.
3. **Remove Film:** Use an appropriate solvent or cleaner before use.

**Specification :**

|   |                                 |                |
|---|---------------------------------|----------------|
| 1 | Colour                          | Brownish       |
| 2 | Odour                           | Odourless      |
| 3 | Specific Gravity                | 0.850 -0.870   |
| 4 | Flash Point                     | > 180°C        |
| 5 | Film Thickness                  | > 1 Micron     |
| 6 | Drying Time                     | Non-Drying     |
| 7 | Salt Spray Test                 | 72 Hours       |
| 8 | Water Displacement Test IS 1154 | Not Applicable |

**Packing:** - 210 Liter drum.
