

PRODUCT DATA SHEET

SEAL-WRP-30

SEAL-WRP-30 is a water-soluble rust preventive oil designed for in-house rust protection. Offering short-term rust prevention for 10 to 15 days, SEAL-WRP-30 is an eco-friendly solution that does not require the removal of its protective film, making it highly convenient for quick and efficient rust prevention in various industrial settings.

Key Features and Benefits

- **Water Soluble:** Easily mixes with water for simple application and cleanup.
- **In-House Protection:** Ideal for short-term rust prevention within industrial facilities.
- **No Film Removal Needed:** The protective film does not need to be removed, saving time and effort.
- **Short-Term Rust Prevention:** Provides effective rust protection for 10 to 15 days.
- **Eco-Friendly:** Environmentally safe formulation.

Application Area

- **Manufacturing and Industrial:** Perfect for protecting components and machinery during short-term storage or between processing steps.
- **Maintenance:** Suitable for temporary rust protection during maintenance activities.

Usage Instructions

1. **Prepare Surface:** Clean the metal surface to remove any contaminants such as dirt, grease, or existing rust.
2. **Mix with Water:** Dilute SEAL-WRP-30 with water as 1:10 dilution.
3. **Apply:** Use as dipping method to apply the solution evenly over the metal surface.

Specification

1	Colour	Fluorescent Yellow
2	Odour	Not Applicable
3	Specific Gravity	1.01-1.028
4	Flash Point	Water Base Not Applicable
5	Film Thickness	Nil
6	Drying Time	10-20 Min.
7	Salt Spray Test	Pass:
8	Water Displacement Test IS 1154	Not Applicable

Packing: - 210 Liter drum.

NON-WARRANTY: The information in this bulletin is based on our experience and tests which we believe to be reliable, but offer no guarantee and accept no responsibility for operations not under our direct control.
